

WHY SHOULD WE READ?

BOOKS CAN DO ALL KINDS OF MAGICAL THINGS!

BUILD VOCABULARY

The more we read, the more new words we come across. This means we expand our understanding of how to use new words!

REDUCE STRESS!

That's right! Reading can reduce stress better than listening to music or taking a walk! Read away the blues!

IMPROVES WRITING SKILLS

The more we read (or listen to stories), the more we understand how to write down our ideas and stories and even orally put our stories together!

HELPS THE BRAIN!

Keeping mentally stimulated can help to combat and possibly prevent dementia and Alzheimer's disease.

PICK UP A BOOK WITH YOUR CHILD TODAY!
